To: Ann. B. Wall, General Counsel and Rulemaking Coordinator, N.C. Department of the Secretary of State

Dear Ms. Wall,

My comment addresses a specific industry rather than a specific question number. As a court reporter working remotely in a nonjudicial capacity in multiple states, my notary commission would be used solely for verbal oaths and acknowledgments. Please provide a rule that allows for the remote verification of the identity of a witness without the cost of a solution provider for this notarial act which does not require a signature not document handling.

Thank you,

Sandra Munoz
